

For more than 80 years, our goal has remained the same: to create lifelong, safe drivers.

True to our AAA history and reliable reputation, we take the driver training business seriously. Our AAA Driver Training School offers certified classroom and behind-the-wheel instructors, meticulously maintained training vehicles and valuable resources to help with the learning to drive process — such as the research-based tool, Keys2Drive, at AAA.com/teendriving.

In addition, our school is designed to make driver training easy for the whole family — with convenient training times and locations, parent and student web portals for scheduling and making payments, and a dedicated customer service team to answer any questions.

You can trust us to give new drivers the practice, guidance and skills they need to safely navigate the road ahead. After all, we wrote the book on driver training!

Graduates of AAA Driver Training receive a FREE one-year Associate membership* upon completion of the program.

(a \$35 value, restrictions apply)

*One (1) free AAA Associate membership per person, per completed driver training package. Associate household memberships are available only to those residing in the same household as the Primary member. An offer of a free Associate membership cannot be combined with any other offer. CLASSROOM INSTRUCTION

8-hour Safe Driving Practices course includes:

- Basic rules of the road
- The dangers of alcohol and drugs while driving
- Drowsy driving
- Good driving habits
- How to handle adverse driving conditions and emergencies

2-HOUR REQUIRED PARENT CLASS

(included in above 8-hour course)

Helps parents understand the teen licensing process and learn how to assist and support their child's driver training. At least one parent or guardian must complete this course before the teen can receive a junior operator's license.

CLASSROOM AND BEHIND-THE-WHEEL PACKAGE

Includes 8-hour Safe Driving Practices course, above. Plus, 4 hours of behind-the-wheel training.

On-the-road experience with a certified instructor, designed to prepare the teen driver for varied situations and receive real-time, hands-on driving tips.
